# THE SUPERIOR BAKKIE LINING

Polyshield X is a polyurea. Polyurea is a synthetic polymer obtained from the reaction of a diamine with a diisocyanate, the polymerization reaction is very similar to that of polyurethane, but in the case of polyurea, the resulting link is a "urea", so it is called polyurea.

We get this link from generating molecular structure an insensitivity to moisture, thus making the polyurea the best waterproof membrane. It is known for its rapid curing time and high strength, making it useful in a variety of industrial and commercial applications.

## BENEFITS

	Prevents the sliding of cargo		Higher tensile strength
	Tearing and abrasion resistant		Low water sensitivity
	Fast turn-around time		Low gloss finish
	Smooth or textured finish		Aesthetically pleasing
	Spray-applied & seamless		Thickness 2,5 to 3mm

### Terms of Warranty:

- PolyShield® warrants the lining to be free from defects in materials and workmanship for a period of 3 years from the date of purchase.
- Any warranty claim within the first 6 months must be repaired by the original approved applicator.
- The warranty is transferable upon inspection of the lining by an authorised PolyShield® applicator, production of the original proof of purchase and warranty card is required. A new warranty will then be issued for the balance of the guarantee term.
- All repairs under warranty shall be subject to proof of purchase.

### Exclusions:

- Normal wear and tear. • Abusive use. • Exposure to fuels, fertilisers, oils, acids and other chemicals for a lengthy time period without prompt flushing off with water. • UV attack. • Colour matching of any repair. • Exposure to heavy, sharp articles which will cause cut damage
